1	Pencil case <i>Must be large enough to hold all the above items.</i>	1	Basic calculator <i>This may be a calculator app on a iPad, Chromebook or Laptop</i>

DIGITAL DEVICES & APPS

As we are a digital school, all students are required to bring their own digital device. For students buying a new device, we **strongly recommend a Chromebook or laptop**. Students who already own a tablet/iPad may bring those instead.

Once students start Year 7, they will be given their school email address and their password to access their school Google account. ***Please remove any parental blocks or restrictions on your child's device for the first few days of school, so we can set it up on our school network. These restrictions can then be reapplied.***

If your child is bringing a Chromebook/laptop, please make sure it is set up with the Google Chrome browser, so that it is an easy step for students to set up their school Google accounts.

If your child is bringing a device that uses apps, they will need the following apps installed on their device. They can be downloaded from the Google Play Store or Apple Store:

- **Gmail** – access to their school email account
- **Google Drive** – attached to their school email account
- **Google Classroom** – attached to their school email account
- **Google Docs** – word processing tool
- **Google Sheets** – spreadsheet tool
- **Google Slides** – presentation tool
- **Google Chrome** - search engine
- **Calculator app** – any calculator app
- **SchoolBridge** (Orewa College app) - for accessing school information, notices, etc

We also recommend for device security that the location tracking settings are on, such as 'Find My iPad' and switching on 'Screen Time' on Apple devices.
